

ebikemotion®

The B2B Flexible bicycle Platform

a fast view of your partner for your future generation e-bike

The reference questions always are who, why and where. ebikemotion® Technologies Limited Soc. was founded as new company in August 2015. The big difference with other company models like the startups is that ebikemotion® Tech. is created by automotive consolidate companies using their own funds, facilities and human staff. All the expertise of the members has been put at the service of the project team to create a product and solution with sense by the point of view of the experience in all the fields of development of it.

Why you must talk with us?

ebikemotion® platform and solutions are built under 3 BIG PRINCIPLES

Innovation

Modularity

Flexibility

If you want to get the success you need to innovate. For the innovation with have a huge product portfolio with different solutions that will be able to give to you the possibility to create one e-bike for your customers that will be yours, including your own view of performance. Be different.
